

HOW TO GET TO MORRISON'S WILLOW GREEN REGIONAL DISTRIBUTION CENTRE

From the new traffic lights on the Bath Road on the northern outskirts of Bridgwater, just north of the old Cellophane works site and before the road crosses the M5, turn down the new road, Kings Road. At the roundabout at the end, just before the new railway bridge (after the bridge if you are coming from the Bristol Road) turn north and drive onto the Morrisons site.

Keep to the right and drive to the barrier on the extreme right at the entrance to the car park. Press the button, security will open the barrier. There is a **strict** 10 MPH speed limit in the car park; please observe it. Once you have gone through the barrier, drive almost as far as you can through the car park, and you will find combined visitor and disabled parking bays on your left hand side, adjacent to the main turnstile. Again if you press the button at the central gate, security will allow you access to the site; please then report to reception in the building opposite the turnstile.
